## TURNKEY SERVICES

**INTEGRA TECHNOLOGIES = One Single Simple Interface**

Integra can support you with every post-wafer fabrication manufacturing service necessary to deliver a finished integrated circuit to your end customer!

Integra can take a finished wafer and perform every post-wafer fabrication service required to drop ship a fully finished device to an end customer including Test Software and Hardware Development, Qualification, Characterization, Wafer Probe, Assembly, Final Test, Upscreening, Inventory Storage and Drop Shipments – or any subset of those services.

## A Full Suite of Production Services

\* Assembly is outsourced in the United States or Asia

Celebrating over 25 years of providing high quality semiconductor test services.

*For more information, call our US based test facilities at 1-800-622-2382*
