

## INTEGRA BY THE NUMBERS

- Over 40 years in semiconductor (computer chips) business
- Founded in 1983 as an internal NCR test group
- Employee-owned since 2008
- Wichita, KS headquarters with operations in Wichita and Silicon Valley
- 500 employees in Wichita, KS and Milpitas, CA
- Employees average more than 11 years of industry experience
- Named one of Wichita Business Journal's Best Places to Work

## 500+ ACTIVE CUSTOMERS WORLDWIDE

- Largest U.S. provider of semiconductor Outsourced Assembly and Test (OSAT) back-end services
- OSATs serve as subcontractors to perform the second half of the manufacturing processes required to make and validate semiconductors, including die preparation, packaging, test, and qualification of chips
- Provide high-quality services to clients in a variety of complex industries like aerospace, defense and medical, as well as everyday commercial products
- Customer satisfaction rating of 97%
- Semiconductors Integra has worked on have been used in:
  - Multiple Space applications, such as the Mars Rover, Hubble Telescope, and satellites
  - More than 100 Department of Defense programs of record, such as PAC3 missile, F35, Apache
  - Multiple Medical applications, such as implanted pain management devices and implanted defibrillators
  - Commercial applications that power everyday technology

## About Integra Technologies Inc.

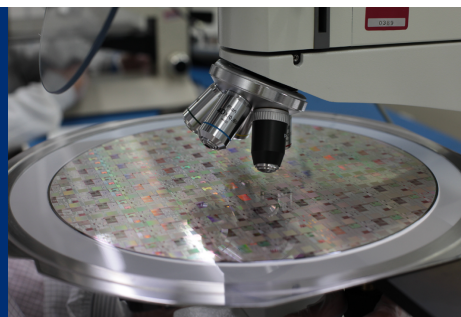

Integra Technologies and its full-turnkey capabilities of die preparation, packaging, testing and characterization of Hi-Rel semiconductor components and related value-added services, are uniquely qualified to serving mission-critical applications where dependability and failure-free performance are paramount. Mirrored capabilities in Assembly and Test provide redundancy and flexibility to maximize efficiency and accommodate customers' specific geographic sourcing requirements.

No other competitor in the industry offers the full range of end-to-end solutions to the Hi-Rel market that Integra Technologies does. Extensive breadth of services remains a key differentiator, as customers continue to consolidate their supply base and seek vendors that can provide a one-stop-shop platform.
